COVER STORY

The transformation to Heritage Bank Center has begun!

The historic venue has played a major role in the memories of Cincinnatians for over 40 years. Whether a first concert or sharing an event with family, friends, or a loved one, the venue on The Banks has provided the background for these cherished moments. Opening in September of 1975, the venue has played host to a who's who of artists including Paul McCartney, Elvis Presley, Garth Brooks, James Brown, Celine Dion, Elton John, Billy Joel, Frank Sinatra, Led Zeppelin, Metallica, AC/DC, Bob Seger, Queen, Marvin Gaye, The Eagles, Michael Jackson, and Pink Floyd. In addition, the venue hosts a wide variety of non-concert events such as the WWE, Disney on Ice, Monster Jam, and more. The facility is also home to the ECHL Cincinnati Cyclones and played host to the Kelly Cup-clinching games in 2008 and 2010.

"We are proud to partner with Heritage Bank to create new memories together for the Cincinnati market," said Nederlander Entertainment COO Ray Harris. "As Heritage Bank continues to grow and increase the prosperity of the communities where they operate, we look forward to introducing the bank to more people who call Cincinnati and Northern Kentucky home. We were thrilled to find such an engaged and complementary fit for our naming rights and will work with them to achieve unique and integrated

activations throughout our facility. We are excited to begin this new era of Cincinnati entertainment as Heritage Bank Center."

"As a locally owned and operated independent community bank committed to the development of this region, Heritage Bank understands the unique history and location of this facility," said Heritage Bank Chairman Chris Caddell. "We also believe in its future. As communities along both banks of the Ohio River continue to invest in the development of a dynamic entertainment and cultural core, look for the Heritage Bank Center to be front and center, attracting the widest variety of events with the power to draw people from this region and beyond."

Heritage Bank was founded 29 years ago by a group of local businesspeople alarmed about the shrinking access to community banks able and eager to respond to regional consumer and business banking needs. Now serving Greater Cincinnati through 19 branches, the bank remains a family-owned institution, already grooming the third generation of leadership. In an age of ongoing consolidation, Heritage Bank is resolute about remaining an independent bank, rooted in the communities where we operate.

Del Gardo's Cannoli.... Taste a New Tradition in Covington!

Del Gardo's Cannoli has been in the making for over 30 years for owner Steve Del Gardo. It started while Steve was a Chef's Apprentice at 18 years old in Columbus, Ohio.

Steve had a dream.....and in 2018 it became a reality. He wanted to open an Italian café but be different than anyone else. He explored a coffee bar concept to a full eat in café but his main focus was his special recipes for cannoli. Steve has an art/design background and wanted to use those skills in creating wonderful looking artisan cannoli as well as being very tasty to one's palette. After 12 months exploring and research on how to get his cannoli to the masses, Steve is living his dream.

Del Gardo's Cannoli Bar offers Italian Fine Wines and Premium Craft Beers.

Non-surgical fat reduction

TruSculpt 3D See the Results!

TruSculpt 3D is an innovative RF (Radio Frequency) device that gives the skin deep heat. This causes the fat cells to die, thus creating a non-invasive fat reduction, body sculpting/contouring treatment. The process can temporarily reduce the appearance of cellulite. It is designed to treat almost any area of the body. Typical areas include the abdomen, flanks, thighs, buttocks, arms and other stubborn regions where fat lingers. TruSculpt 3D is comfortable and requires no anesthetic. It is virtually pain free. Most patients describe the treatment as a hot stone massage and others report almost no sensation of heat at all.

During a typical treatment, a small hand piece releases radiofrequency energy. This is placed over the targeted area and a small surrounding area. The energy causes fat cells to heat up and programs them to liquefy and be removed through the lymphatics after dying. The energy released from the heat from the TruSculpt 3D also causes skin contraction for a slimming and smoothing effect on the skin. There is no downtime with this treatment, allowing immediate return to normal activity. Patients see significant improvement approximately 8 weeks following one TruSculpt 3D treatment and full results up to 3 months after. Additional sessions may be required to obtain desired results if more than usual results are expected.
