Mecklenburg Gardens gives birth to a new music venue in Cincinnati attached to the historic restaurant in the historic bierhall. We call it Mecks. As the dream of owner John Phillip Harten and event coordinator Mara Moon Mecklenburg moves its hand in the late night music venue arena. #### DESTINATION OF THE MONTH

### Freedom to travel!

just got back from my third trip to paradise since July. All have been to luxury unlimited resorts in Mexico. Mexico never closed the airports in March like most other countries, although resorts and beaches remained closed through June. Besides Mexico. US and Canadian citizens, as well as those in countries that are allowing travel, are being welcomed back to other vacation destinations. Jamaica has been doing a phenomenal job since opening back up in June keeping guests safe by requiring negative COVID tests prior to boarding the plane and continuing the safety protocol throughout the airport arrival and resort stay. Dominican Republic no longer requires a COVID test, but follow the temperature check procedure upon arrival. Costa Rica, Turks and Caicos, Curacao and St. Martin finally say yes to travelers with a negative COVID test and proof of travel and medical insurance. Additionally, temperature checks are set up throughout the airport and all at the resorts from the entrance. lobby areas, to dining areas and other frequented locations. Mask wearing throughout travel all the way from your gateway city to your room is required. Before officially opening the doors to

guests, these resorts put staff through extensive training on new operational protocols. It amazed me when I was there right after opening, how seamless it seemed for the staff to handle the extra cleaning. personal hygiene and additional safety measures. Sacrificing their comfort to provide the new

safe, clean environment. Once you are settled, wearing a mask is optional for guests although required for all staff 100% of the time. The staff elicit the confidence to relax, enjoy the freedom and just have fun again.

#### HERE'S TO YOUR HEALTH

### 5 Self-Care Tips to Improve your well-being

etween hectic schedules, ever-growing to-do lists, and caring for others, it can be easy to put self-care on the backburner. Committing to a healthy diet, getting adequate sleep, reducing stress, exercising regularly, and unplugging from your devices can help keep you healthy, both mentally and physically. Consider these self-care ideas to help bolster your well-being.

Nourish Yourself: While eating well may seem like an obvious self-care tip, it's not always easy to change your eating habits or replace fast food and sweet indulgences with healthier options. However, properly nourishing your body with the right foods, like fish, leafy green vegetables, and berries, can help you maintain a healthy weight, reduce your risk for diseases such as diabetes, improve your memory and reduce inflammation, among other short- and long-term benefits.

Get a Good Night's Rest: Getting a proper night's sleep — most experts recommend 7-9 hours for the average adult — can have a positive impact on how you feel both mentally and physically. Having both the proper routine — limiting caffeine and sugar intake before bed and reducing distractions such as TV or smartphones — and the right mattress can be key to ensuring your bedroom is the sleep oasis you need for quality rest.

Practice Relaxation Techniques: Whether you have a few spare minutes or an entire afternoon of free time, finding a quiet place to relax and practice meditation or yoga can help you reduce stress and anxiety, become more self-aware and create a sense of calmness during even the busiest of days. Try setting up a secluded area in your home (or office) where you can concentrate on your practice

and really listen to yourself.

**Unplug and Unwind:** With 24/7 access to the internet, social media, and television, it can be easy to create bad habits associated with the alwaysconnected, smart phone-obsessed world. However, screens — and the blue light they emit — have been proven to negatively impact sleep and mental performance. Setting aside some time — aim for a couple of hours in succession — each day to unplug from your devices and their distractions can lead to better sleep, productivity, emotional wellness, and creativity.

Make Sure to Move: While it's important to take care of yourself mentally, taking care of your body can be just as important to provide peace of mind. Finding time each day to get in at least 30 minutes of aerobic exercise, whether it's a fullblown workout, a walk around the neighborhood with your dog or a bike ride to a favorite destination, can boost vour mood, reduce stress and anxiety, and help keep your waistline trim. Find a regimen that works for you, be it multiple short active periods or one long gym session, and make it part of your daily routine for an easy way to boost both your physical and mental well-being.
